Trying new things means
going out of your comfort zone.

Trying new things pushes you into the unknown.

If you try something,

you may not like it, but you know "at least I tried".

If you never try.

you will only know the regret of a missed opportunity.

If you try something,
it doesn't always guarantee success.

But if you never try,
it will definitely guarantee failure.

Give yourself another chance.

Give others another chance.

Give the world another chance.

.....

Try and fail, but don't fail to try.

Maybe the right person is waiting down in line.

Readers from Panama!

Panama's national animal is the Panamanian Golden Frog but it's considered extinct in the wild in 2007.

It is actually a toad with toxins and communicates using waving. The Harpy Eagle is the national bird of Panama and is depicted on the coat of arms of Panama.
